STUDENT IDENTITY VERIFICATION**

The 1998 General Assembly passed legislation which affects child day centers sponsored by religious institutions. This law is intended to help identify missing children and requires the following: Proof of the child's identity and age may include a certified copy of the child's birth certificate, birth registration card, notification of birth (*hospital, physician or midwife record*), passport, copy of the placement agreement or other proof of the child's identity from a child placing agency, record from a public school in Virginia, or certification by a principal or his designee of a public school in the U.S. that a certified copy of the child's birth record was previously present-ed. While programs are not required to keep the proof of the child's identity, documentation of viewing this information must be maintained for each child. If the requested information is not received within seven business days of your child's first day of school, we are bound by law to notify the local law enforcement agency.
